PROJECT

HEALTH-CARE | LIVE

Description

Developed a full-stack web application enabling users to track health metrics, manage medications, upload medical documents, and receive personalized diet and exercise plans.

Technologies used :

- React • React-router • TailwindCSS • ChakraUi • Node.js • Express.js • MongoDB

LAWFIRM | LIVE

Description

Designed and developed a static portfolio website for a law firm to showcase its services, expertise, and notable case studies. The website features a modern and user-friendly interface, intuitive navigation, and responsive design to ensure accessibility across devices.

Technologies used :

- Next.js • TailwindCSS

EMAJOHN | LIVE

Description

Developed a streamlined e-commerce website, Emajohn, focusing on user authentication through Firebase and efficient data management using local storage. The website offers a seamless shopping experience with features such as user registration, login, product browsing, cart management, and checkout.

Technologies used :

- React • React-router • TailwindCSS • Firebase
